Client Testimonial

“PSG provides VA with Agile coaching expertise, and have been instrumental in transforming the program. When PSG came to the program, we were calling ourselves an Agile implementation, but that’s all we were really doing. Calling ourselves Agile. We weren’t true Agile.... They examined nearly every aspect of the program and provided expert knowledge and guidance on how to truly operate in a Scaled Agile environment. The difference between how the program started, and how the program is run now, is night and day. PSG’s work for VA cannot be underestimated in value, and is a true driver for the success of the program to date.”
